

Affected Systems	Genotypes:	hm1	hm2
<b>cardiovascular system</b> ▼			✓
pulmonary trunk hypoplasia			✓
abnormal cardiovascular development			✓
abnormal heart looping			✓
abnormal bulbus cordis morphology			✓
abnormal outflow tract development			✓
abnormal heart morphology			✓
overriding aorta			✓
ventricular septal defect			✓
heart right ventricle hypertrophy			✓
abnormal semilunar valve morphology			✓
aortic valve stenosis			✓
pulmonary valve stenosis			✓
abnormal heart right ventricle outflow tract morphology			✓
dilated heart ventricle			✓
thin ventricular wall			✓
